

Process analysis or finding a needle in a haystack – IDEA® makes it possible

„We have many years of experience in using IDEA® for auditing business processes and for special investigations. In doing so, we can save a significant amount of time by using internally generated audit macros as well as the partly automated data retrieval of Audicon’s SmartExporter.

Using IDEA’s sampling features, which are based on systematic sampling and risk evaluation, we are able to generate samples for auditing our factories all over the world. Thanks to IDEA® the days of poking around in the dark are over. Due to the easy handling of IDEA® and SmartExporter, data analysis becomes an everyday tool for auditors and is not only reserved to the experts of the IT department.“

IDEA® is a registered trademark of CaseWare IDEA Inc. For more information see www.caseware.com.

The Benteler Group is a global enterprise. Under the strategic management holding, Benteler International AG, the operative business is organized into the three legally independent business divisions Benteler Automotive, Benteler Steel/Tube and Benteler Distribution within Benteler Deutschland GmbH. Benteler is proud of its more than 130-year history of success as a company, managed as a family business – now in its fourth generation. Profitable growth and a progressive tradition are decisive for Benteler in continuing to ensure its entrepreneurial autonomy in the future as well. The Benteler Group currently employs around 30,000 people at 170 sites in 38 countries. More information: www.benteler.de
