

# I use SmartSync®.

**Meinolf Mertens**  
Business Graduate,  
Auditor/Tax Accountant  
Partner Göken, Pollak und Partner  
Treuhandgesellschaft mbH

## SmartSync®: Strengthening cooperation and overcoming geographical barriers

“As long-term users of AuditSolutions\*, we have invested in SmartSync® to strengthen cooperation between our employees and enable them to work even more efficiently.

SmartSync® has changed the way we work together. Thanks to SmartSync®, it doesn't matter whether we are at the client's premises or want to resume work at a different time or in a different place. The solution synchronizes client files in real time from an auditor's notebook to a server which is located centrally in the office. From there, changes are immediately transferred to all the other auditors' computers. This means that I can review my colleagues' work and, if necessary, comment on the audit results at any time while I'm at the office.

Unnoticed by users, SmartSync® runs in the background and synchronizes the files as soon as an online connection to the server is available. We believe that SmartSync® supports the ongoing trend towards digitization in the field of auditing, changing the way we organize our workspace and working time, e.g. as far as telework and remote audits are concerned.”

SmartSync is a registered trademark of CaseWare International Inc. ([www.caseware.com](http://www.caseware.com)).

\*AuditSolutions is a product by Audicon and comprises among other things the German version of CaseWare Working Papers, a registered trademark of CaseWare International Inc.
